Board of Directors and Management
City of Salamanca Industrial Development Agency
225 Wildwood Avenue
Salamanca, New York, 14779

We have audited the financial statements of the business-type activities information of the City of Salamanca Industrial Development Agency (the "Agency") for the year ended March 31, 2022. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and Government Auditing Standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter dated June 1, 2022. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Authority are described in Note B to the financial statements. As described in Note B to the financial statements, the Authority implemented all applicable new GASB standards that became effective during the year ended March 31, 2022. We noted no transactions entered into by the Authority during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the Authority's financial statements was:

Management's estimate of useful lives and annual depreciation of fixed assets is based on adopted Agency policy. We evaluated the key factors and assumptions used to develop the useful lives and annual depreciation expense in determining that it is reasonable in relation to the financial statements.

Management's estimate of the allowance for doubtful accounts is based on Agency history and known factors. We evaluated the key factors and assumptions used to develop allowance for doubtful accounts in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of the net pension liability and related deferred outflows and inflows is based on amounts reported to the Agency by the NYSLRS. We evaluated the key factors and assumptions used to develop the net pension liability and related deferred outflows and inflows in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of the compensated absence liability is based on accumulated leave time and current hourly pay rates. We evaluated the key factors and assumptions used to develop the compensated absence liability in determining that it is reasonable in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected

all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 18, 2022.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Authority's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Agency's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to the schedule of proportionate share of the net pension liability and the schedule of employer contributions, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on the schedule of leases, schedule of payments in lieu of taxes, schedule of bonds, and financial data schedules (REAC), which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior auditors' report/period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the Board of Commissioners and management of the Agency and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,
R.A. Mercer & Co., P.C.
